

SAHYADRI

AGRO PIPE INDUSTRIES

MANUFACTURER OF HIGH QUALITY HDPE PIPES

ABOUT US

Introducing, Sahyadri Agro Pipe Industries, A venture of Sahyadri Sthapatya, a leading manufacturer of High – quality HDPE pipes. Our company was established in 2021 with the goal of providing top notch piping solutions to the construction, agricultural and industrial sectors.

We use state of art technology and equipment to manufacture our pipes, ensuring that they meet the highest industry standard.

Our HDPE pipes are known for their excellent strength with respect to required pressure class, which makes them ideal for long term underground installations, they are also resistant to corrosion & chemicals.

In addition to our standard HDPE pipes, we also offer custom solutions for specific applications, such as gas distribution, water & sewage treatment, and telecommunications.

OUR CERTIFICATION

We are officially certified by Bureau of Indian Standards (BIS) to manufacture HDPE Pipes according to IS 4984 : 2016 with latest amendment.

Size Range : DN 63 to DN 1200.

PE 100-PN 3 to PN 16

PE 80-PN 2.5 to PN 10

PE 63-PN 2.5 to PN 8

HDPE PIPES

- Pipes are manufactured using 100% High Density polyethylene.
- Flawless performance with long functional life.
- Useful for carrying potable water, slurries, hazardous waste, cables, chemicals, compressed gases, oils & agriculture applications.
- HDPE pipes in a standard of: - IS 4984: 2016 with latest amendment

- **FEATURES**

1. High Impact Strength
2. High Flow Capacity
3. Weathering Resistance
4. Trouble Free Installation
5. Flexibility
6. Resistance to damage, corrosion & chemicals.

HDPE ELECTRO FUSION FITTINGS

- Fittings are manufactured using virgin Pe100
- polyethylene rated up to SDR11.
- All fittings are individually inspected using
- a computerized monitoring that utilizes
- advanced barcode technology.
- Electro Fusion Fittings are available in: -
- PN 16 or SDR 11 class

HDPE FABRICATED FITTINGS

- Manufacturing from quality approved ISI marked
- pipes with precise imported machines.
- Useful for distribution and also jointing purpose: -
- 1. Manufacturing range from 63mm to 1200mm.
- 2. Fittings 90° Bend, 45° Bend,

OUR VALUABLE CLIENTS:

- Water Resources Department, Govt. of Maharashtra
- Maharashtra Jeevan Pradhikaran, Govt. of Maharashtra
- Karnataka Urban Water Supply & Drainage Board Govt. of Karnataka
- Rural Drinking Water & Sanitation Department, Govt. of Karnataka
- Karnataka Neeravari Nigam Limited (KNNL), Govt. of Karnataka
- Jal Jeevan Mission, Govt. Of Maharashtra
- Jal Jeevan Mission, Govt. Of Karnataka
